FRIDAY, SEPTEMBER 10, 1948

European Situation is Deteriorating

SIX weeks of high-ranking discussions between the Western nations and Russia over the settlement of disputed issues in Germany and elsewhere on the Continent seem to have produced no real change of attitude at the Kremlin. In Berlin, in Poland and in the Balkans is the same story, one of unmarked force being carried with a high hand. The Western nations, no doubt, expected some form of concerted reply to the Marshall Plan for rehabilitation of Europe and were ready for that. It is doubtful, however, if anyone was prepared for the degree of obstinacy and bickering which has taken place.

British Columbia Case Will Be Heard

AFTER a good many years of refusal, British Columbia's protest against the mountain differential on rail freight in Canada will now be heard. The Board of Transport Commissioners has agreed to a resolution on its decision that the province will speak to it before the present session has passed. That is the only opportunity British Columbia has to bring its case clear-cut, buttressed by many years in which the anomalous charge only became more inequitable.

The initial attempt to recover from British Columbia's protest was to put the case of railway construction and operation over the Rocky Mountains and has been fantastic from the start. The principle were to hold, rail freight would go by gradients, and not by the bulk and weight of goods moved. Freight would be entitled to bed-rock rates.

Municipalities Endorse Plea for Censorship

TO the great volume of public opinion already expressed against the unrestricted circulation of obscene magazines, books making heroes out of criminals and tending to belittle law and law-enforcement has been added the weight of the Union of British Columbia Municipalities. The union apparently is willing to see the Dominion or the Provincial Government, or both, take the length of banning novels and brands of publications.

Such an outcry as has been heard all over the continent in recent months should not be ignored by those in Ottawa and in the provinces responsible for the issue of morals. Censorship is a drastic remedy, but that seemingly is what the public wants. Endorsed efforts by the municipalities, like magazines to impose voluntary restraints

and food and fuel emergencies of the moment must be followed by the strengthening of the police under Russian control; open bids to the Germans to paint the Russian sector; the stimulated confusion over the currency issue; and, most recently, the rise at the Berlin city hall and the arrest there of police officers who would not sign the Russian turn.

Coupled with this has been an intensifying degree of suppression in the satellite nations. Russia has enabled the Czechs, Slovaks and Poles to establish a dictatorship of which showed in Czechoslovakia and more lately Poland. Further west have been the actions of Communist unions in Italy, France and elsewhere in attempts to bring work to a halt; flat refusal to agree on the opening of the Channel to all-traffic traffic; and the peculiar brutality over Tito and the Comintern in the rehabilitation of Europe, in spite of pledges made before the United Nations by Russia.

mountainous provinces would draw the top scale and so forth. A trans-continental railway is a nation-wide enterprise or it is not. The alternative of a mountain differential in this nation simply has not worked.

British Columbia's interest in the matter is acute because of the current battle over general freight rates. Increase in rates has been granted by the Transport Board to the railways over the protests of seven provinces. The case of British Columbia is on top of them, were to be applied indefinitely over and above the existing rates. The subject of a Transport Board to be placed under still further handicap in trading in Canada. There is neither warrant nor excuse for this. As the differential argument goes under formal review the repeated pleading of the Administration at Ottawa to remove this universal penalty will not be forgotten.

have failed to produce any noticeable improvement in the standard of periodicals. Good news, however, and filter some of them obviously should be done. It would appear that the force of law should be invoked.

At the same time, no volume of laws can control newsstand, and filter some of them obviously should be done. It would appear that the force of law should be invoked.

Report on U.N.

By N. K. EWER

LONDON.—Mr. Trygve Lie's annual report to the General Assembly of the United Nations in this year is inevitably a rather chattering document. For the record of the last 12 months shows how, at every turn and in every direction, the work of U.N.O. is hampered and even crippled by a deep rift between the two camps.

This was something entirely unforeseen when the Charter was drafted. The whole basis of the Charter was the cooperation which it created, was that there would be a general union, a real spirit of co-operation, between its members. There might have been some occasion to deal with some surplus and surplus states which refused to abide by the decision of the Security Council, but that is not the kind of cooperation which the Council would be equipped with better means of enforcing the will of the community than it has at present.

But nobody doubted that the council would be a general union, a real spirit of co-operation, between its members. There might have been some occasion to deal with some surplus and surplus states which refused to abide by the decision of the Security Council, but that is not the kind of cooperation which the Council would be equipped with better means of enforcing the will of the community than it has at present.

But nobody doubted that the council would be a general union, a real spirit of co-operation, between its members. There might have been some occasion to deal with some surplus and surplus states which refused to abide by the decision of the Security Council, but that is not the kind of cooperation which the Council would be equipped with better means of enforcing the will of the community than it has at present.

But nobody doubted that the council would be a general union, a real spirit of co-operation, between its members. Plans for Compact U.N. Guard Force May Be Considered at Paris Parley

LAKE BUCCHER, N.C., Sept. 9 (CP)—Plans for a United Nations guard force of 1,000 to 1,500 men were expected to be considered at the United Nations General Assembly opening in Paris September 15.

The United States this week supported the expansion of the U.N. United Nations military general, for a small guard force, and distinct from a standing force.

Twenty Others Told to Leave States House

STOATESVILLE, Sept. 9 (CP)—Mayor Cassinelli House told the Ontario Provincial Council that 20 persons were in violation of the Ontario Public Access to the House of Commons Act.

Of the 20 persons, the mayor would say only that they "have been told to leave."

The 20 persons, including James D. McLaughlin, a member of the Ontario Provincial Council, were told to leave the House of Commons.

OTTAWA, Sept. 9 (CP)—The R.C.M.P. announced that 20 persons were in violation of the Ontario Public Access to the House of Commons Act.
